

Public Meeting for the OU1 and OU2 Proposed Plans

Libby Asbestos Superfund Site, EPA Region 8

EPA recently issued its Proposed Plans for clean up of Operable Units 1 (OU1-the former Export Plant) and 2 (OU2-the former Screening Plant and nearby areas). The Proposed Plans describe the environmental concerns, work done to date, and the additional work that EPA plans to do to ensure protection of human health at those OUs.

Tell the court
Reporter what You
think about The
Proposed Plans!

The public comment period for the Proposed Plans ends on October 16, 2009. EPA will present details of both Proposed Plans at a public meeting (see below). Oral and written comments will also be accepted from the public at that meeting. Written comments can also be submitted to EPA prior to the end of the comment period. EPA will address the comments in a Responsiveness Summary that will be attached to the final Record of Decision.

Copies of both plans have been mailed to Libby and Troy residents. Additional copies are available at the EPA Information Center at 108 E. 9th Street in Libby (please *note the new address*).

For more information on the meeting or how to comment, please call the number provided below.

September 28, 2009
